Ayham Alghergawi

Junior Software Developer | Android & Java | Robotics Technician
Istanbul, Turkey • ayhamagg@gmail.com • +90 534 367 9975 • linkedin.com/in/ayham-a-i-alghergawi-bb3a62261

PROFILE

Computer Engineering graduate with hands-on experience in Android development, Java, Python, and robotics education. Completed an international internship at FRAFOS GmbH (Berlin) building mobile VoIP monitoring features. Also worked as a Robotics & Programming Technician in Istanbul. Fluent in English (C2), Arabic (native), and intermediate Turkish. Eager to grow into a full-time software development role with real-world project ownership.

TECHNICAL SKILLS

Languages: Java, Python, C
Mobile: Android (Java, Android Studio), API integration
Web: HTML, CSS, PHP
Databases: MySQL, SQLite
Tools: Git, Docker, Postman, Arduino
Soft Skills: Fast learner, Team player, Problem-solving, Time management

EXPERIENCE

Robotics & Programming Technician | Üçüncü Bin Yıl Academy & Robotics | Istanbul, Turkey
2025

- Deliver training sessions in robotics, Python, and AI fundamentals to students.
- Support hardware troubleshooting and software configuration across lab equipment.
- Design and run workshops on Arduino and programming concepts.

Software Development Intern – Mobile VoIP | FRAFOS GmbH | Berlin, Germany (Remote)
2024

- Built monitoring features for VoIP traffic in an Android app using Java and REST APIs.
- Assisted in backend integration and debugging within an international dev team.
- Gained hands-on agile workflow and production-level mobile development experience.

PROJECTS

Hotel Reservation System – Android App

- Built with Java, PHP backend, and MySQL. Users can browse rooms, enter info, and book with confirmation screens.

Digital Business Card App – Graduation Project

- Android app for shareable digital profiles with QR code generation and customizable templates. Built in Android Studio.

VoIP Monitoring Dashboard

- UI screens and API integrations for real-time VoIP performance tracking. Built during internship at FRAFOS GmbH.

EDUCATION

B.Sc. Computer Engineering | Maltepe University | Istanbul, Turkey
2021 – 2025

- Focused on software development, mobile programming, and AI concepts. Graduation project: Digital Business Card App.

Software Engineering Studies | Eastern Mediterranean University | Cyprus
2020 – 2021

- Studied OOP, data structures, and web development. Collaborated on international group projects.
